

FUND OBJECTIVE

CPI Target

The EPPF aims to earn an annual return of at least 4.5 percent after inflation (as measured by the South African Consumer Price Index), applicable taxes, and investment fees and costs, over a rolling three-year period.

Fund size (R'Bn): 198.25

Note: CPI Target over 1 year is CPI. CPI Target for 3 years and greater is CPI + 4.5%. Returns are annualised for periods greater than 1 year

The strategic benchmark consists of the index returns of the various asset classes in the proportions set out in the Fund's Strategic Asset Allocation, and it assumes no active management.

NOTES

With the input from the EPPF's actuary, the Board of Trustees of the EPPF have determined and established the primary investment objective for the EPPF. The investment strategy has been developed in the context of long-term capital market expectations, as well as multi-year projections of actuarial liabilities. Accordingly, the investment objectives and strategies emphasise a long-term outlook and interim performance fluctuations will be viewed with the corresponding perspective.
