Accordingly, whilst the Fund carries out commercially reasonable procedures to check for the most commonly known viruses and to check the integrity of data, it remains the service provider's responsibility to carry out a virus check on any documents before launching them, whether to be sent or to be received on disk or otherwise. Therefore and notwithstanding any collateral contract, warranty or representation, the Fund will have no liability to the service provider on any basis, whether in contract, delict (including negligence) or otherwise, in respect of any error or omission arising from or in connection with the electronic communication of information to or from the service provider and the service provider's reliance on such information and including (but not limited to) the acts or omissions of the relevant service providers.

If the communication relates to a matter of significance on which the service provider wishes to rely and is concerned about the possible effects of electronic transmission, the service provider should request a hard copy of such transmission from the Fund.
